

YOUTUBE WITH RCHC

A MEMBER'S GUIDE TO YOUTUBE

*If you do not have a YouTube, or do not intend to get one, that is okay **you are not required** to have or make a YouTube account to watch our videos. However, if you'd like to participate and comment we do recommend making an account.*

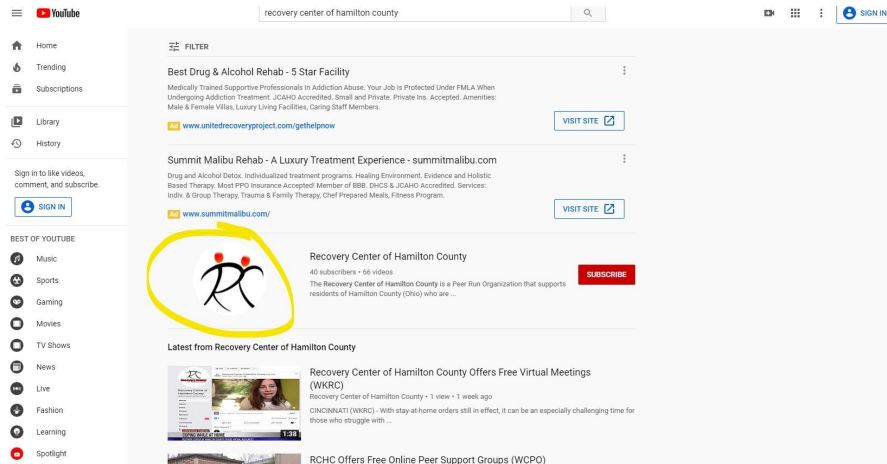

First search Youtube.com in your internet search bar: when you open up your web browser, just type in, www.youtube.com then press enter. This will take you to a youtube homepage that looks like this (most likely with different videos):

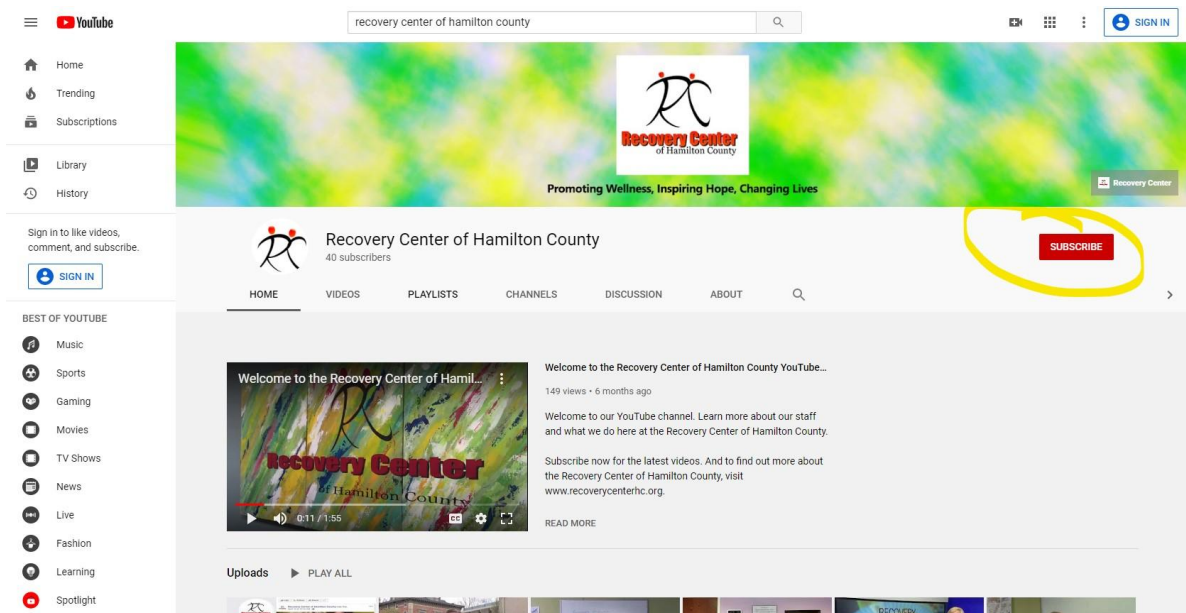

Second log-in to (or create) your YouTube account: You will need to be logged in to participate in commenting on the YouTube live videos, however, you can still watch without an account if you'd like. You can sign-up using your email account, or by creating an account. **If you don't want to make one, that's fine just skip this step and proceed to step three.*

The third step is continued on back of the page, please flip over.

Third, type in the search bar: **Recovery Center of Hamilton County** and then **press enter**: your page should look like this, click Recovery Center of Hamilton County (we circled that in yellow for you).

Last, once you click on our page, it should look like this: from here you can search through our videos and find different classes we offer at RCHC, yoga, and many other videos to help you during these difficult times. *If you're logged in, press the subscribe button to keep updated with us.* Happy Watching!

If you have any questions, concerns, or suggestions, please contact us at 513-241-1411 or send us an email: info@recoverycenterhc.org
